## AI Content Strategist – Remote Role for Beginners Interested in Digital Publishing

### Description

### Position Snapshot

We're hiring an entry-level AI Content Strategist to help launch and manage nonfiction Kindle books using automated content tools and a proven production framework. If you've ever dreamed of being part of the publishing world but didn't know where to start—this role is designed for you. No writing portfolio, technical background, or formal education is required.

Instead of writing entire books by hand, you'll work within a streamlined system to research profitable topics, guide AI-generated content, and shape manuscripts for release on Amazon Kindle. Your published books will generate royalties, and the system is built to help you scale your catalog without the need for traditional publishing experience.

### Your Core Workflow

This is a strategy-driven publishing role, not a creative position. You'll use AI and templates to produce nonfiction content in a predictable, repeatable format. Here's what that looks like:

#### Step 1: Uncover Book Topics With Built-In Demand

Your first task is to identify which topics are worth publishing. Using our market insight system, you'll filter through Kindle categories to uncover overlooked nonfiction niches. These are topics real readers are already searching for—so your content is backed by buyer demand, not guesswork.

#### Step 2: Coordinate AI-Generated Drafts

With the topic in hand, you'll turn to AI platforms like ChatGPT. Using structured prompts and pre-built frameworks, you'll generate book content that fits Kindle's preferred formats. You'll act more like a content coordinator—organizing, editing, and improving AI outputs—not a traditional author.

#### Step 3: Assemble and Format Your Book

Once your draft is ready, you'll follow Kindle-specific formatting guidelines to organize chapters, optimize readability, and prepare your book for upload. You'll

use document layouts and style references that are already tested and approved by Kindle's publishing standards.

## Step 4: Optimize Book Listings for Maximum Reach

Next, you'll craft metadata—including your book's title, subtitle, and description—using fill-in-the-blank headline templates. These are designed to increase visibility and conversions, even if you've never written sales copy before.

## Step 5: Publish and Scale

Finally, you'll upload your book using Amazon KDP's platform. Once live, you'll track its performance and repeat the process with new books. You'll own every title you release—and the royalties that come with it.

## What You'll Use

This isn't a job where you're thrown in blind. You'll be equipped with a set of tools to simplify every phase of the process, including:

- AI content prompt libraries
- Nonfiction chapter structures
- Amazon keyword and metadata tools
- Kindle formatting templates
- Cover design frameworks using Canva
- Performance tracking spreadsheets

Each part of the process has a plug-and-play solution. You don't need to invent anything.

## Who This Role Is Meant For

We built this opportunity for people who want to build income without freelancing, applying for gigs, or writing entire books manually. You'll enjoy this role if you:

- Are task-oriented and follow instructions well
- Want to own digital assets that continue to pay long-term
- Prefer working alone at your own pace
- Are open to using AI tools to simplify content creation
- Are organized, consistent, and capable of following through on publishing projects

## Requirements

There are no certifications, degrees, or resumes needed to get started.

What you do need:

- Access to a computer with internet
- Familiarity with Google Docs or Microsoft Word
- Attention to detail
- Willingness to follow a process using templates and AI prompts

If you can manage a checklist, you can succeed in this position.

## Compensation Structure

This is not hourly or salary-based work. You are compensated through royalties on Amazon. Each book earns money through Kindle purchases and Kindle Unlimited page reads.

Examples of earnings from past participants:

- 1–2 books = \$50–\$200/month
- 5+ books = \$400–\$1,000/month
- 10+ books = \$2,000+/month

Books remain live indefinitely and royalties stack month after month.
