### Description

## Night Owl? Get Paid While the World Sleeps

Not everyone works best during the 9 to 5 grind—and if you're more focused, more productive, and more available after dark, we've got the perfect role for you. We're hiring **Remote Overnight Chat Agents** who can work late-night shifts from home, supporting customers through live chat while earning **\$25-\$35/hour**. No degree required. No experience needed. Just reliability, written communication skills, and the ability to stay calm and clear under pressure.

## What You'll Do After Hours

You'll be part of our night shift support team, answering customer questions via live chat while most of the world is asleep. From helping customers reset their passwords to troubleshooting billing questions, your role is to keep things running smoothly when the day shift signs off. You'll use scripts, support tools, and your own judgment to solve problems quickly and kindly—no phones involved.

## Key Night Shift Responsibilities

Respond to customers via live chat using professional, supportive written communication  
Use provided templates and internal tools to resolve issues in real time  
Keep up with multiple chat windows during periods of high activity  
De-escalate frustrated customers calmly and effectively using tone and empathy  
Log each chat accurately for handoff to the day team if needed  
Maintain awareness of overnight protocols and handle basic system checks where required

## Who This Is For

You prefer to work when others are sleeping  
You're looking for a job that fits around a daytime commitment like school, caregiving, or another job  
You want quiet, focused work that doesn't require customer calls or office meetings  
You're dependable, responsive, and can commit to working overnight hours regularly
