Real Estate Wholesaling Deal Processor | Fully Remote | No License or Experience Required

Description

A remote acquisitions firm is hiring Deal Processors to support its fast-paced, contract-driven real estate wholesaling division. This is a 100% work-from-home role built for individuals who want to gain hands-on exposure to real estate deals—without selling, cold calling, or buying property. You'll be following a proven digital workflow created by a nationally recognized investor featured on A&E, designed to streamline the process of assigning real estate contracts to investor buyers.

If you're organized, process-oriented, and excited to learn the back-end systems that drive real estate profits, this opportunity allows you to contribute directly to active deals, all while building a valuable, scalable skill set.

What You'll Do

As a Deal Processor, you'll step into the transaction pipeline after a seller signs a contract. From there, your responsibility is to prepare that contract for legal assignment to a cash buyer. This involves document validation, digital organization, file formatting, and deadline tracking.

You'll work exclusively on the administrative side of the deal. You'll never be expected to generate leads or interact with sellers. Your focus is clean execution—keeping contracts moving so assignments happen without delays or legal hiccups.

Your Responsibilities Will Include:

- Reviewing incoming contracts for completeness and formatting errors
- Verifying pricing, dates, and required clauses are in place for legal assignment
- Organizing digital files into pre-structured folders for each deal
- Updating internal spreadsheets with contract details and timelines
- Preparing assignment contracts using provided templates and automation tools
- Delivering completed files to vetted buyers through email or cloud links
- Tracking each deal's status and flagging any items needing attention
- Archiving finalized transactions and submitting documentation for recordkeeping

You'll be expected to complete each deal with accuracy and consistency using checklists and SOPs provided during onboarding.
