Online Book Publishing Support | Turn AI-Generated Content Into Royalties

Description

Position Summary

We're bringing on new team members for a Remote Book Publishing Support role designed for complete beginners. If you've never written a book, formatted a manuscript, or published online before—this is built for you. You won't be working with clients or selling freelance services. Instead, you'll follow a reliable, step-by-step framework to help produce nonfiction Kindle books that generate passive income through Amazon royalties.

This role doesn't require writing skills or a college degree. It's for people who enjoy following systems, using tools, and producing consistent output on their own schedule. Each project you complete becomes a digital product that can pay you month after month.

What You'll Be Doing

You'll oversee the creation of short, informative eBooks using a structured publishing process. Here's how the workflow breaks down:

Research and Choose a Topic

Start by selecting a nonfiction topic that has demand but low competition. You'll use a built-in method to validate potential topics using Amazon search trends and performance benchmarks. This ensures you're creating content readers are already looking for.

Generate the Book's Content

You won't write the book yourself—instead, you'll input structured prompts into an AI tool like ChatGPT. The system will produce a complete draft that follows a specific outline. You'll organize the chapters, clean up the wording where needed, and prepare it for the next step.

Format the Manuscript

Next, you'll format your book to meet Kindle standards. This includes inserting page breaks, headers, and proper spacing. You'll follow an exact template that makes this part of the process simple, even for someone with no publishing background.

Upload and Launch

Finally, you'll upload your manuscript and cover to Amazon KDP. You'll follow a publishing checklist to ensure everything is entered correctly. Once live, you'll track performance and prepare your next project.

What's Included

You'll receive access to every tool and guide required to complete the publishing process, including:

- Topic research worksheets
- AI prompt sequences
- Nonfiction chapter outlines
- Kindle formatting instructions
- Metadata and keyword formulas
- Cover design templates
- Upload walkthroughs
- Royalty and performance tracking logs

Nothing is left to guesswork. The entire system is laid out for you.

What You'll Need

There are no experience or education requirements. All you need is:

- A computer or laptop with internet access
- Basic comfort using Google Docs or Word
- Ability to follow detailed instructions and repeat processes
- Interest in building digital products that earn over time

This is an excellent role for people who like independence and consistency.

Compensation and Earning Model

This is not an hourly job. You earn royalties from each book you publish. Amazon pays monthly based on sales and Kindle Unlimited page reads.

Here's what others in this role typically earn:

- 1 book: \$50-\$200/month
- 5 books: \$300-\$1,000/month
- 10+ books: \$2,000+/month

Because books stay on Amazon indefinitely, each new release adds to your income base.

Who This Is For

You'll love this role if you:

- Want to work from home with zero startup cost
- Enjoy building assets that pay passively
- Prefer checklists and structured systems over creative brainstorming
- Are comfortable using AI tools and digital platforms
- Value long-term income growth over one-time payouts

No writing talent needed. Just focus, consistency, and a willingness to follow a roadmap.
