Online Content Developer | Turn AI Outputs Into Amazon Kindle Books

Description

Position Summary

We're seeking Remote Content Builders to help transform AI-generated drafts into formatted nonfiction Kindle books. This is a **beginner-level**, fully remote role designed for people who want to work independently, follow clear steps, and build a catalog of digital products that generate passive income. **No experience, degree, or writing background is required.**

You'll follow a proven system that takes you from topic selection to book upload using AI writing assistants, layout templates, and listing optimization tools. Each book becomes a self-owned digital asset published to Amazon Kindle Direct Publishing (KDP), where it can earn ongoing royalties.

This role is ideal for anyone who wants structure, flexibility, and the ability to work at their own pace.

What You'll Be Doing

Your role is not about writing from scratch. You'll act as a content coordinator—managing the creation, formatting, and publishing of nonfiction eBooks using automation and guided workflows.

Step 1: Pick a Niche That Pays

Use built-in tools to research topics with proven reader demand. You'll apply simple criteria to find niches with low competition and clear buying behavior. All topic ideas are nonfiction—think how-to guides, habit changers, or educational mini-books.

Step 2: Use AI to Create the Draft

You'll follow provided prompt scripts to feed ideas into an AI platform like ChatGPT. The AI writes the content, and your job is to organize, clean, and structure it using included chapter templates. Typical books range from 3,000 to 7,000 words and are structured for clarity and usability—not storytelling.

Step 3: Format for Kindle

Take your manuscript and apply pre-designed formatting to prepare it for Amazon

Create your book listing using fill-in-the-blank title, subtitle, and description templates. Then apply keyword tools to choose the best backend tags and Amazon categories. These steps help your book get discovered by readers organically.

Use a walkthrough checklist to upload your book to Amazon's Kindle platform. After previewing and finalizing your listing, you'll publish the book and begin monitoring performance. Over time, your growing library of books becomes a stream of recurring income.
