Online Digital Systems Apprentice | Entry-Level Tech Position with Training

Description

Want to break into tech without a degree or coding experience? This remote apprenticeship-style role teaches you how to set up and manage digital systems used by real businesses—CRMs, automation workflows, and funnel tools—using simple, step-by-step training. No tech background needed. Just follow the blueprint and start building from day one.

About This Role

As a Remote Digital Systems Apprentice, you'll get hands-on experience configuring digital systems that help businesses run more efficiently. You'll learn how to build out client pipelines, automate email and SMS follow-ups, and launch prebuilt funnels—all using beginner-friendly tools that require zero coding. Through a structured 5-day challenge, you'll go from total beginner to someone who can build and manage marketing systems businesses will pay for. This is your chance to enter the world of remote tech jobs without the need for certifications, degrees, or months of online courses.

Key Responsibilities

Learn & Implement Core Tech Stacks

- Set up and configure a CRM system for small business use
- Build automated workflows that handle lead follow-up and booking
- Launch drag-and-drop landing pages, opt-in forms, and calendars

Manage and Customize Workflows

- Use tagging, triggers, and automation logic to control user journeys
- Track and monitor lead progress inside the CRM
- Adjust automations to improve conversion flow and engagement

Test and Troubleshoot Systems

Hiring organization

HomeBusinessChannel.com

Employment Type

Full-time, Part-time, Contractor

Industry

Customer Service

Job Location

Remote work from: United States

Base Salary

\$ 2000 - \$ 10000

Date posted

April 29, 2026

Valid through

01.01.2029

- Simulate user behavior to test automations
- Identify and fix missing tags, broken links, or misrouted leads
- Log and document process improvements

How Your Day Will Look

Morning

- Complete a training module from the 5-Day Systems Challenge
- Set up a basic lead capture form and connect it to your CRM
- Build your first workflow using the drag-and-drop visual builder

Midday

- Add email and SMS sequences to your pipeline
- Test user behavior paths and review your automations
- Join the support group to ask questions and share updates

Afternoon

- Customize your funnel layout, confirmation messages, and tags
- Practice cloning your system for a different industry
- Track progress and prepare for the next day's training

Qualifications

No Degree Required

This apprenticeship-style path is open to anyone willing to learn. You don't need a formal education to get started.

No Experience Necessary

The training assumes zero tech knowledge. Every step is documented and shown in real-time.

You'll Do Well If You:

- Like to build and optimize systems
- Want to understand the backbone of how digital marketing works
- Prefer a behind-the-scenes role instead of sales or support

How to Succeed in Remote Work

Create a Routine

- Set aside focused time each day to complete your modules
- Keep your digital workspace organized—templates, tools, notes

Follow the Framework

- Don't deviate from the process—it's been optimized for fast learning
- Each module builds directly on the last

Ask for Help When Needed

- You'll have full access to a support group with peers and mentors
- Troubleshoot quickly and implement solutions immediately

Benefits

Real-World Tech Experience

- Gain experience with CRM platforms, automations, and client systems
- Learn tools used by top agencies and service providers
- Build a remote-ready skillset that stands out to employers and clients

Flexible Remote Lifestyle

- 100% work-from-anywhere structure
- No commute, no fixed hours
- Learn and build at your own pace

Structured Support

- Access to the 5-Day Digital Systems Challenge
- Templates, workflows, and examples included
- Peer support and expert mentorship throughout

Frequently Asked Questions

Do I need to know how to code?

No. All tools are drag-and-drop and beginner-friendly. You won't touch a line of code.

Will I be working for a company or building my own system?

You'll be building your own fully functional CRM and funnel system, which you can use to land freelance clients or remote jobs.

How long does it take to complete the training?

The challenge is designed to be completed in five days, with about 1–2 hours of work per day.

Can I really get remote work with this skill?

Yes. Many freelancers and virtual assistants charge \$500–\$2,000+ to build and manage these systems for businesses.

When can I begin?

You can start immediately. Click the "Learn More" button to access your dashboard and begin the challenge.

Why This Opportunity is Perfect for You

Breaking into tech doesn't have to mean bootcamps, coding, or a four-year degree. This is your chance to gain real-world digital skills in just five days—skills that power the tools businesses rely on every day. You'll walk away with a repeatable system, a marketable skill, and the confidence to apply it anywhere.

How to Apply

Click the "Learn More" button to get started with the 5-Day Digital Systems Challenge. All tools, templates, and workflows are included. No experience or degree required. Work from home and start building your digital future today.
