Online Entry-Level AI Positions | \$25-\$35 Per Hour | Complete-Time

Description

Begin Your Career with Remote Entry Level AI Jobs

Are you new to artificial intelligence and looking for a remote opportunity? We're seeking candidates for **Remote Entry Level AI Jobs**, offering \$25-\$35 an hour, full-time. This role is perfect for individuals eager to start in AI, working on tasks like data preparation and tool testing, all from the comfort of home. No office required—just a reliable internet connection and your enthusiasm.

Companies are increasingly relying on AI for innovation, creating demand for entry-level talent to support these efforts remotely. Whether you're a beginner or transitioning into tech, this position offers a solid starting point. Here's what the job entails, the skills we're looking for, and why it's a great fit for you.

Key Responsibilities

As part of **Remote Entry Level AI Jobs**, you'll assist with foundational AI projects from your home workspace. Your duties will include preparing datasets by labeling or categorizing information, testing AI tools for accuracy, and documenting your work in simple reports. You'll follow provided instructions and meet deadlines to ensure projects stay on track.

For example, you might label customer reviews to train a sentiment analysis tool one day, then test a chatbot's responses the next. You'll collaborate with team members through online platforms, making adjustments based on feedback, all while earning \$25-\$35 an hour and gaining valuable AI experience.

This role combines independent work with virtual team communication, offering a full-time schedule without the need for an office setting.

Qualifications and Skills

We're looking for motivated individuals who can manage tasks and meet deadlines in **Remote Entry Level AI Jobs**. A stable internet connection is essential for this fully remote position.

No prior AI experience is necessary—this role is designed for beginners. If you've ever worked with spreadsheets, followed detailed instructions, or organized information, you have the basics to succeed. Familiarity with tools like Microsoft Excel or Google Docs is helpful but not required; we'll provide training. Strong
